

B M Bharath

Junior Data Analyst | BI Analyst | SQL | Power BI | Python | Azure Analytics | Immediate Joiner
+971 56 394 6325 | bharathbm83@gmail.com | [LinkedIn](#) | [Portfolio](#) | Dubai, UAE

PROFESSIONAL SUMMARY

Results-driven Junior Data Analyst with hands-on experience in SQL, Python, Power BI, and Azure. Skilled in data preprocessing, exploratory data analysis (EDA), ETL pipeline automation, KPI tracking, dashboarding, and business insights delivery. Experienced in machine learning model evaluation, feature engineering, and time-series forecasting. Strong background in analyzing complex datasets and converting them into actionable business insights.

TECHNICAL SKILLS

- Data Analytics & BI:** Data Analysis, Exploratory Data Analysis (EDA), KPI Tracking, Reporting, Dashboard Development, Trend Analysis, Forecasting
- Programming & Querying:** SQL (Joins, Subqueries, CTEs), Python (Pandas, NumPy, Matplotlib)
- Visualization Tools:** Power BI (DAX, Power Query), Microsoft Excel (Pivot Tables, XLOOKUP)
- Cloud & Data Engineering:** Azure Data Factory, Data Lake Gen2, Databricks, Synapse Analytics, ETL Pipelines
- Databases:** MySQL, SQL Server
- Applied Machine Learning:** Feature Engineering, Model Evaluation, Classification Models (Applied)

PROFESSIONAL EXPERIENCE

Junior Data Science Intern

October 2025 - Present

Sentiantal Private Limited – Data Science & Analytics, Hyderabad, India

- Working on data collection, preprocessing, and EDA to support analytics and ML use cases.
- Assisting in ML model development and evaluation under senior mentorship.
- Developing dashboards and analytical reports for stakeholder reporting.

Machine Learning Intern

May 2024 - June 2024

Vjayam Technologies Private Limited – Manufacturing AI, Bengaluru, India

- Contributed as part of a team to developing and training a VGG16-based image classification model using 10k+ images.
- Assisted in image preprocessing, data augmentation, and model evaluation to improve robustness and accuracy.
- Supported model integration, documentation, and result presentation for AI-driven quality control workflows.

PROJECTS

Azure Retail Sales & Customer Analytics (AdventureWorks)

[GitHub](#)

- Built an Azure analytics solution on 3 years of retail data (55K+ records) using automated ETL pipelines and Power BI.
- Implemented Medallion Architecture using ADF, ADLS Gen2, Databricks, reducing processing time by ~25%.

SuperStore Sales Analytics & Forecasting Dashboard

[GitHub](#)

- Designed interactive Power BI dashboards with 10+ KPI and analytical visuals to analyze sales performance, customer trends, regional metrics, and operational insights.
- Applied SQL, Python, and time-series forecasting to generate 15-day sales forecasts, supporting short-term demand.

Paal.AI – IoT-Based Milk Quality Checker

[GitHub](#)

- Developed a real-time IoT and ML system that preprocesses 4 sensor readings per milk sample at the edge, then transmits cleaned and normalized data to Firebase Cloud for centralized analytics.
- Integrated LightGBM models with Python, Firebase, and ESP8266, delivering real-time alerts within 5–10 seconds.

EDUCATION & CERTIFICATIONS

B.Tech Computer Science and Engineering (AI & ML)

September 2021 - May 2025

Kalasalingam Academy of Research and Education, Tamil Nadu, India

First Class with Distinction | CGPA: 8.37 | Minor: Robotics and Artificial Intelligence

- Microsoft Certified: Azure Data Fundamentals - [Microsoft](#)
- Data Analytics Essentials - [Cisco](#)
- Introduction to Data Science – [Cisco](#)

AWARDS & ACHIEVEMENTS

- Best Student Chapter Award** – IUCEE IASF 2025, achieved under my leadership as Student President, leading 5 departments and 100+ members to rank among the Top 10 IUCEE student chapters in India.
- Published Research Paper, [An Evaluation of Synesthetic Learning Pedagogy for Engineering Education](#). (JEET), 2025
