

B M Bharath

Nationality: Indian | 📞 +971 56 394 6325 | ✉ bharathbm83@gmail.com | 🌐 Portfolio | 🔗 LinkedIn

Computer Science (AI & ML) graduate focused on building data-driven solutions through Data Analytics, Machine Learning, and Business Intelligence. Immediately available for full-time roles, with hands-on internship experience using Python, SQL, Power BI, and Azure.

EDUCATION

Kalasalingam Academy of Research and Education

B.Tech Computer Science and Engineering (AIML)

First Class with Distinction | CGPA: 8.37

September 2021 - May 2025

Tamil Nadu, India

EXPERIENCE

Junior Data Science Intern

Sentinantal Private Limited — Data Science & Analytics

Oct 2025 – Present

Hyderabad, India

- Working on data collection, preprocessing, and EDA to support analytics and ML use cases.
- Supporting insight generation and exploratory analysis for data-driven decision-making.
- Assisting in ML model development and evaluation under senior mentorship.
- Developing dashboards and analytical reports for stakeholder reporting.

Machine Learning Intern

Vjayam Technologies Private Limited — Manufacturing AI

May 2024 – Jun 2024

Bengaluru, India

- Contributed as part of a team to developing and training a VGG16-based image classification model using TensorFlow/Keras.
- Assisted in image preprocessing, data augmentation, and model evaluation to improve robustness and accuracy.
- Supported model integration, documentation, and result presentation for AI-driven quality control workflows.

Student President

IUCEE KARE Student Chapter (IKSC)

Apr 2024 – May 2025

Tamil Nadu, India

- Led and managed 5 internal departments and 100+ student members to drive technical and academic initiatives.
- Collaborated with faculty, external partners, and other college chapters, contributing to IKSC being recognized as a top 10 IUCEE student chapter in India.

SKILLS

Programming Languages: Python, SQL, Java

Data Analytics & BI: Power BI, Excel, Data Analysis, Exploratory Data Analysis (EDA), KPI Tracking, Dashboarding, Trend Analysis

Data Engineering & Cloud (Azure): Azure Data Factory, Azure Data Lake Gen2, Databricks, Synapse Analytics, ETL Pipelines

Databases: MySQL, SQL Server

Machine Learning & AI: Supervised & Unsupervised Learning, Feature Engineering, Model Evaluation, Generative AI

Tools: Jupyter Notebook, Google Colab, Git (basic), NumPy, Firebase

PROJECTS

Azure Retail Sales & Customer Analytics (AdventureWorks)

[GitHub](#)

Built an end-to-end Azure retail analytics solution with medallion architecture, automated ETL pipelines, and Power BI dashboards for business KPIs. (Azure Data Factory, Data Lake Gen2, Databricks, Synapse Analytics, SQL, Power BI)

SuperStore Sales Analytics & Forecasting Dashboard

[GitHub](#)

Designed interactive analytics and forecasting dashboard to track sales performance and support demand planning decisions. (Power BI, Python, Time Series Forecasting, SQL)

Paal.AI – IoT-Based Milk Quality Checker

[GitHub](#)

Developed a real-time IoT and ML system to assess milk quality and detect adulteration using sensor data and cloud analytics. (IoT Sensors, Python, LightGBM, ML, Firebase, ESP8266)

CERTIFICATIONS

- Data Analytics Essentials - **Cisco**
- Microsoft Certified: Azure Data Fundamentals - **Microsoft**
- Introduction to Data Science - **Cisco**

AWARDS & ACHIEVEMENT

- Best Student Chapter Award – IUCEE IASF 2025, awarded to IUCEE KARE Student Chapter for excellence in student engagement and innovation under my leadership.
- Published Research Paper, [An Evaluation of Synesthetic Learning Pedagogy for Engineering Education](#). (JEET), 2025
- 2nd Place – IBM ICE Day, Poster Competition (Nov 2022) and Technical Paper Presentation (Apr 2023).
